

Core data collections¹ in Australia: Available Years of Data

Snap shot as of 30 June 2020

¹ Core data collections are those that are routinely linked by the Data Linkage Units within the PHRN.

Not all data is available up to the 31 December of the year shown.

This graph is only representative up to the 30 June 2020. Check with the Data Linkage Unit to determine whether more years are available.

² The Tasmanian Cancer Registry and Qld Cancer Registry is linked on a Project basis and is not part of the the Master Linkage Map.

³ National data on non-melanoma skin cancers, besides BCC and SCC, are complete from 2001 only, and data on myelodysplastic syndromes and some myeloproliferative cancers are complete from 2003 only.
